

G'day have you registered for the Red Dress Run - No, slacker

Wow do you believe it!!!! 2019 already!!

Wow, what a great word, Wow, it is what it says. When you say it every one knows what you are on about. I don't know if it is multi lingual but it should be.

Back to the story. It is nigh on the event, Croc Nash Hash that is. There is another great word that does not get used enough – nigh – what can you say about nigh? half way between a sigh & a nay.

Are we nay ready, yes we are!!!

Check out a Dictionary, a lot of great words but a boring story line.

Now I am sobering up and back to the story.

Croc Nash Hash 2019, what's happening.....

First up I would like to welcome all those hashers who have just registered and receiving this newsletter for the first time. If you would like to catch up on previous ramblings just go to www.crochash.com & click on newsletters and waste an hour or so. You might find them both amusing and informative.

We've had a better than expected response to the last cut off point for price rises nigh on 800 Hashers registered, there's that word again, told you it is a good word. So we have decided to hold back on the next price increase until the 1st April, but only till the 12 noon.

And because of the fairly early response we have managed to beg some more goodies bags, so at the moment everyone should get a one.

We are always updating the web page as more info comes to hand, so keep checking it out.

One addition of interest to some is we will be adding a new bit to the registration area for transfers. If something has happened and you find yourself unable to attend and wish to sell your registration, we will be creating an area where you can post it and hopefully find someone to buy it. On the page will have all the information you will need to transfer the rego.

I guess you've seen the only bid for 2021 Aussie Nash Hash. Yes it's from Fiji!!

So, if you are happy to have Aussie Nash Hash go off shore then sit back and relax and do nothing. But if you think that Aussie Nash Hash should actually be held in Australia then put your hand up and make a bid because maybe it won't come back here. There are lots of hash clubs out there that have lots of retired hashers with lots of time on their hands ... it's not that hard, just ask Bazza and Shazza.

It's time to get crackin' on that Hash Act for Saturday night. It doesn't have to be long, but mainly to make us all laugh or cry and generally a bit of light entertainment. We only have 2 acts so far and would like to have few more. Maybe you can 'rehash' an act you did a few Nash Hashes ago because we probably won't remember! Although who can forget a naked Darwin Don? For info please contact our Hash Act coordinator bettyboop1961@yahoo.com

And finally – there has been talk of making 'Hash Memorabilia' wall at Croc Nash Hash 2019. You know, all those banners you've stolen from different Aussie Hash events over the years and don't know why you did it or what to do with them once stolen!! Now it's just taking up room in the shed and collecting dust or breeding mice. Well here's the chance to bring them out, shake off the moths and show them off. If this sounds like you then contact Mctaf@yahoo.com and he will tell you what to do with them. This will be for all to see so it's not another excuse to steal someone else's banner!!

On On for now

Shazza

(Your humble hash servant)
